Where Your Recipes Are Completed

A balance of perfect tastes

esfood, a promise of 100 years

Delicious, enjoyable and safe food starts from caring for people.
For all things are made by man, we at esfood consider "trust" and
"trade ethics" as the most important core values.

Greetings from esfood! Since its foundation in 1997, esfood has always comprised of professionals who only think of and research "sauce."

The sauce determines the taste and character of food.

Because of its key role, a sauce is often called "secret," "magic," or "all-mighty." Some famous sauces are so exclusive that their recipes are kept away even from daughters-in-law! Based on fast understanding and efficient exchange of feedback, esfood has developed and provided a wide variety of accurately composed sauces sought by clients, while making sure the recipe remains confidential. In other words, we do our job best to create truly authentic signature menus per client.

In search of an unforgettable taste or ultimate epicurean pleasure.

Food lovers take a journey around the country and beyond. In tandem with the development of the dining industry, local and global, and increasingly more sophisticated taste levels of consumers, esfood continues to research, innovate and advance into the future. As a result, the taste created by esfood is now a delicious part of the dining industry as well as meal tables at consumers' homes. We feel proud that it is none other than the great taste created by esfood that makes new customers come to us for more.

Based on such trust from all customers, esfood aims to grow together with its customers and partner company like.

Professional researchers and talented chefs at esfood in collaboration with the expertise of our clients promise to cherish our precious relations, as we contribute to the development of Korean dining and food culture. Thank you.

Chief Executive Officer | Kim Hyung soo

우리가 믿는건,
분명 우리가 만드는 모든 것들이
누군가에게 감동을 줄 수 있다는 것입니다.
We believe that everything
we create can touch someone's life.

CREATIVE CENTER

Seoul Creative Center is where esfood Sales Department, R&D and chefs meet to create top-quality food products and communicate with customers.

Researchers and chefs actively search for freshest top-quality ingredients and research optimal menus while reading the trend of the dining industry, local and global. The resulting sauce created based on years of experience and know-how's is then optimized through communication between esfood experts and clients.

📍 Seonin Bldg, 648-9 Junggok-dong, Gwangjin-gu, Seoul

WELL-MADE CENTER

Pocheon Well-Made Center comprised of experts specializing in production, quality management, logistics, and business administration, is where the sauce developed in Creative Center is delivered to consumers.

Under the company's core value on the safety for people and products, esfood staff trained by the HACCP-certified factories inspect quality from the time of arrival of goods in the warehouse to delivery, while maintaining safety by regularly cleaning and inspecting facilities.

We at esfood guarantee that our systematic warehouse system maintains the best and the most optimal condition at all times.
